index 75

ACTIVATED CARBON
Ammonia removal; What's best? ..... July 34
Activated carbon fights bad taste .... Sept. 70
Fitchburg has a 'standout' ..... Nov. 52

ACTIVATED SLUDGE
Milking secondary treatment for all it's worth ..... Oct. 21
Get the most from the final clarifiers .. Oct. 53
Non-point sources score big at WPCF sessions ..... Dec. 48

ADVANCED WASTE TREATMENT
AWT plant is a top performer ..... Nov. 49

AERATION
Austrian plant knocks out nitrogen .... Jan. 19
Fight floatables with chemicals ..... Jan. 33
This pond wears a necklace ..... June 64
Lower speed aerators cut energy use Sept. 76
Higher speed may lower problems .... Oct. 32
Milking secondary treatment for all it's worth ..... Oct. 21
Novel aeration system bows ..... Dec. 59

ALGAE PROBLEMS
Plant protects a recreational lake .... Nov. 69

ALKALINITY
Burn that sludge ..... Oct. 65

AUTOMATION
California gets straight 'A's in computer control ..... March 20
New plant solves seasonal problems . Oct. 23
Bloomington goes solid-state ..... Nov. 64
Full automation goal of water reclamation plant ..... Dec. 18

AWWA
Safe Drinking Water Act 1 Scene 1 of Here we go again ..... Aug. 14
Asbestos and chlorinated organics top AWWA discussions ..... Aug. 26

BIOLOGICAL TREATMENT
California plant gets straight 'A's in computer control ..... March 20
'Wee beasties' may improve your effluent ..... March 35
A computer comes to Missouri ..... April 54
Computing the big picture ..... May 37
Water plant goes automatic ..... May 59
ABF is cleaning up . . . economically . June 22
Sanitary landfills: No place for leaching ..... Sept. 47

BY-PRODUCTS
AWT plant gets tough with ammonia March 26
Sediment + sewage + leaves = topsoil July 18

CANNING WASTES
ABF is cleaning up . . . economically . June 22

CENTRIFUGING
Minneapolis keeps on truckin' ..... May 24

CHEMICALS
Take good care of your chlorine equipment ..... March 45
Corrosion: Don't forget it's there .... March 56
Coagulant recovery takes planning ... May 47
Odor problems? Don't just hold your nose ..... May 62

CHEMICAL ENGINEERING
Michigan city picks lime-caustic soda . April 25
We must improve chlorination design Sept. 61

CHEMICAL TREATMENT
Fight floatables with chemicals ..... Jan. 33

CHLORINATION
Take good care of your chlorine equipment ..... March 45
We must improve chlorination design Sept. 61
Let's be sane about chlorination ..... Oct. 46

CLARIFICATION
Don't forget side water depth ..... June 32
Get the most from the final clarifiers .. Oct. 53

COMPUTERS
California gets straight 'A's in computer control ..... March 20
A computer comes to Missouri ..... April 54
Computing the big picture ..... May 37
Water plant goes automatic ..... May 59
New plant solves seasonal problems . Oct. 23
Bloomington goes solid-state ..... Nov. 64
Full automation goal of water reclamation plant ..... Dec. 18

CONSTRUCTION
Ecuador gets modern transmission system ..... Feb. 25
A plant grows in Brooklyn ..... June 36
Miami sewer plan takes the positive approach ..... Sept. 31
Brooklyn plant meets major challenges Nov. 30
Flexible plant gives a long-range solution ..... Nov. 44
PVC makes big reservoir better ..... Nov. 57

CONTROLS
Check that pH ..... Oct. 70

CORROSION CONTROL
Corrosion: Don't forget it's there .... March 56

COSTS
Michigan city picks lime-caustic soda . April 25
Membrane desalting gets big push ... April 35
Management improvements cut costs . May 42

DESALTING
Membrane desalting gets bug push .. April 35

DESIGN
Booster pumping design: Whats involved? ..... Feb. 37

DEWATERING
Innovative water plant slated for New Jersey ..... April 30

DISINFECTION
Gamma rays vs. the E. coli monster .. July 29
We must improve chlorination design Sept. 61
Let's be sane about chlorination ..... Oct. 46

DISSOLVED OXYGEN
Maintenance slashed on D.O. probes . May 80

EDITORIALS
Water is now a "no-no?" ..... Jan. 17
Needed: better people ..... Feb. 19
A tip of our Stetson ..... March 19
Still a need: More speed ..... April 17
Make PL 92-500 work for us ..... May 23
Big Brother . . . where have you been? June 21
Needed: Better state of affairs ..... July 17
Needed: Monetary muscle ..... Aug. 13
Water too long "cheaper than dirt" .. Sept. 23
Warning: An audit may be dangerous to your health ..... Oct. 17
And the winner ..... Nov. 23
Tinkers to Evers to Chance (or who's on first)? ..... Dec. 17

ELECTRODIALYSIS
Membrane desalting gets big push ... April 35

ENERGY USE
Efficiency spurs adjustable frequency drive use ..... Oct 41
Burn that sludge ..... Oct. 65
Boyne City reduces energy use. ..... Nov. 73

ENGINEERING
Austrian plant knocks out nitrogen .... Jan. 19
Fight floatables with chemicals ..... Jan. 33
Water quality and resources planning must be united ..... Feb. 20
Ecuador gets modern transmission system ..... Feb. 25
Booster pumping design: What's involved? ..... Feb. 37
Cut phosphate at low cost ..... April 18
Membrane desalting gets big push ... April 35
Innovative water plant slated for New Jersey ..... April 30
Cooling blowdown in cooling towers .. April 45
In-line filtration may be just for you ... May 50
Odor problems? Don't just hold your nose ..... May 62
Oil makes separation slicker ..... May 68
Plant operations: Get the engineer involved ..... June 26
Don't forget side water depth ..... June 32
A plant grows in Brooklyn ..... June 36
New pipe may cut installation costs .. June 69
Ammonia removal; What's best? ..... July 34
Miami pushes regionalization to keep pace with population ..... Sept. 24
We must improve chlorination design Sept. 61
Higher speed may lower problems .... Oct. 32
Stop leachate problems ..... Oct. 27
Jacksonville gets a big lift ..... Oct. 74
Water Factory 21 is the future ..... Nov. 34
Brooklyn plant meets major challenges Nov. 30
Interim plant is a design leader ..... Nov. 39
Plastic pipe, pressure sewers mark expansion ..... Nov. 85
Novel aeration system bows ..... Dec. 59

EQUIPMENT
Take good care of your chlorine equipment ..... March 45
Corrosion: Don't forget it's there .... March 56
Efficiency spurs adjustable frequency drive use ..... Oct. 41

FILTRATION
Innovative water plant slated for New Jersey ..... April 30
Pinch valves are gaining ..... Jan. 39
Minneapolis keeps on truckin' ..... May 24
In-line filtration may be just for you ... May 50
ABF is cleaning up . . . economically . June 22
Inflation sparks economical designs .. June 44
Lower speed aerators cut energy use Sept. 76
Flexible plant gives a long-range solution ..... Nov. 44
Pressure filters upgrade town's water treatment ..... Dec. 32

FINANCING
Rates must be fair ..... May 31
EPA money proposals cause concern Aug. 43
EPA speeds grants ..... Sept. 41

FLOCCULATION
Cut phosphate at low cost ..... April 18

FLOTATION
New flotation system really cuts solids Aug. 36

GOVERNMENT REGULATION
PL 92-500: Phoenix vs. the EPA ..... June 52
Sewers: Scapegoats in land use planning? ..... July 22
Safe Drinking Water Act 1 Scene 1 of Here we go again ..... Aug. 14
EPA money proposals cause concern Aug. 43

W&WE reader poll

If you can't lick 'em, join 'em

In the July issue, W&WE's Reader Poll sought to learn your feelings on getting the industry's message to the public.

Among the questions was that of setting up a foundation to provide money to enable water and wastewater officials to tell their side of the story. An overwhelming 63.8% of our readers supported this concept.

However, where the money comes from is another matter. Over 48% said that it should come from manufacturers, but only 8.8% of the respondents were manufacturers. So it seems most people think makers of equipment should kick in—except perhaps the makers of equipment.

1. Should the AWWA and the WPCF merge?
   A. Yes - 38%
   B. No. - 25.8%
   C. Some committee work only. - 13.7%
   D. Certain programs only. - 22.5%

2. Should the AWWA and the WPCF become trade associations instead of non-profit associations?
   A. Yes, the AWWA should. - 4.3%
   B. Yes, the WPCF should. - 4.3%
   C. No, the AWWA should not. - 42.8%
   D. No, the WPCF should not. - 48.6%

3. Are there too many other water and wastewater associations and splinter groups?
   A. Yes. - 56.4%
   B. No. - 43.6%

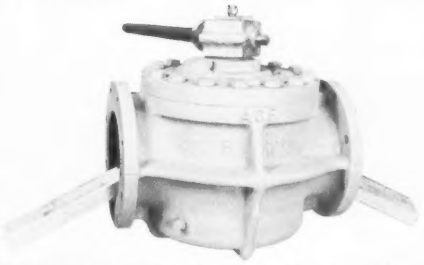
4. Tax-free foundations such as the Ford, Carnegie, Rockefeller, and Mellon, have supported "environmental" and "activist" groups; private individual funds have done this also. Do you, therefore, favor the possibility of creating new foundations to financially aid water and wastewater professionals and to also get their side of the water story to the public?
   A. Yes. - 63.8%
   B. No. - 22.4%
   C. Undecided. - 13.8%

5. If yes, should these foundations aid mostly:
   A. Consulting sanitary engineers? - 16.7%
   B. Utility officials and managers? - 16.7%
   C. Both? - 66.6%

6. From which segment of the water and wastewater field would there most likely be those who could provide the necessary funds to set up one or more foundations?
   A. Consulting sanitary engineers. - 14.2%
   B. Water utilities. - 5.4%
   C. Wastewater operations. - 5.4%
   D. Educators. - 5.4%
   E. Government officials. - 21.4%
   F. Manufacturers of equipment. - 48.2%

7. I am a:
   A. Consulting sanitary engineer. - 42.2%
   B. Water utility official. - 14%
   C. Wastewater official. - 12.2%
   D. Educator. - 1.7%
   E. Government official. - 21.1%
   F. Manufacturer/supplier. - 8.8%

This valve can cut it.



This W-K-M ACF Plug Valve has knife-edge cutting action strong enough to shear even a two-by-four inch board. Plus a full round bore that doesn't restrict flow.

The ACF Plug Valve. It keeps slurries and tough solids moving with no hangups.

For details, write for our brochure and the names of distributors near you.

ACF Plug Valve—the basic valve with a thousand uses.

W-K-M Valve Division,
ACF Industries, Incorporated,
P.O. Box 2117,
Houston, Texas 77001.

FILTER SAND AND GRAVEL

Standard Gradations

2-1/2" x 1-1/2" Gravel
1-1/2" x 3/4" Gravel
3/4" x 1/2" Gravel
1/2" x 1/4" Gravel
1/4" x 1/8" Sand
.80-1.20mm Torpedo Sand
.45-.55mm Filter Sand

UNIFORMITY GUARANTEED

Other gradations with reasonable tolerances produced to meet engineers' specifications.

• Bulk — or bags of 100 lbs. each •

NORTHERN GRAVEL COMPANY

Phone 319/263-2711
P. O. Box 307 — Muscatine, Iowa 52761

We have been suppliers of sand and gravel for water filtration since 1918.
